

The Board of Directors

I am pursuing a Master of Environmental Law at the University of Melbourne, with a keen interest in biodiversity conservation and the interactions between international environmental law and domestic legal systems. I volunteer with the Animal Concerns Research and Education Society (Singapore), a nonprofit organisation focusing on the rescue, rehabilitation and release of injured wildlife, as well as outreach programmes to educate the public on animal welfare issues in Singapore. I am also a board member at HUG Community Services Ltd, a charity supporting youths at-risk and their families, in the belief that the youth of today are our leaders for tomorrow.

During my time at the University of Melbourne, I participated in the Association of Pacific Rim Universities (APRU) Student Global Climate Change Simulation, an exercise in which students from different universities formed multi-country teams to simulate delegate discussions at the UN Climate Change Negotiations. For me, the exercise underscored the importance of diplomacy and the rule of law in achieving a principled global cooperation in our fight against climate change.

I am an Advocate and Solicitor of the Supreme Court of Singapore, and was a practising lawyer in dispute resolution for seven years. During this time, I successfully led the conduct of complex cases, including in various interlocutory applications and the cross-examination of both factual and expert witnesses.
